

Project Progress Report

Due Date: 2023.11.29 (Wednesday) 23:59

Your team needs to share the progress of your project. Perform the following tasks:

- 1) Create a **PROGRESS.md** file to your project repository.
- 2) **[Project Summary]** Write a summary of the progress made so far.
- 3) **[Project Schedule]** Provide a simple figure that depicts the project schedule and the current status of progress.
- 4) **[Project Screenshot]** Attach a brief screenshot of the project that is currently in development.
 - The content of the figure does not necessarily have to be the UI (user interface) development status.
- 5) **[Individual Progress Status]** Individually, each team member should list the tasks they have worked on.
 - For each task, you must include a link to the corresponding commit.

[Note]

- You can refer to the following **sample PROGRESS.md**:
<https://github.com/kw-dhshin/2023-KW-OSS/blob/main/PROGRESS.md>
- **If the PROGRESS.md file is not created by the deadline**, your team will receive a score of zero.
- You can contact me via e-mail (dhshin@kw.ac.kr) if you have any questions about reporting project progress.
